DETAILED ACTION

Allowable Subject Matter

1. Claims 1-7, 9-11, 13-19 are allowed over the prior art of record.
2. The following is an examiner's statement of reasons for allowance:

The closest prior art of record is U.S. Pat No. 6010156 to Block.

Block discloses a mailing system wherein plurality of labels are printed by an all purpose printer as the labels are fed through the printer. Block discloses that the printed labels are: intended recipient's address data and return address data, postal service postage indicia and postal handling instructions.

As per claims 1, 7, 11, 14-16, the closest prior art of record fails to teach or suggest substantially simultaneously printing of a plurality of postage meter stamps. The Applicant defines substantially simultaneously printing as "postal stamps to multiple documents being printed during one pass across a blank writing medium" or as "a single document on which a plurality of postage meter stamps are printed in a single printing operation." Block does not teach or such definition of substantially simultaneously printing. Claims 2-6, 9, 10, 13, and 17-19 depend upon claim 1 and have all the limitations of claim 1 and are allowable for the same reason.

As per claim 7, the closest prior art of record fails to teach or suggest printing a postage meter stamps including the expiration date of the postage storage device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
